

## **Structural Engineering Technologist**

We are looking to add a capable and qualified Structural Engineering Technologist to our team for a permanent full-time position. Tryon Engineering Inc.'s Structural Engineering team works to provide services to residents, local governments, and industrial clients throughout Western Canada. Tryon's dedicated and dynamic team of Professionals has over 60 years of combined experience working on municipal development, industrial construction, and residential projects.

*If you are interested in:*

- Working with engineering team members to plan and design structural projects.
- Preparing detailed design and as-built plans using AutoCAD and Civil3D.
- Supporting the engineering team with construction specifications, schedules, and quantity calculations.
- Performing construction inspection as needed.

*And you have the following qualifications and skills:*

- Technical Diploma in Architectural, Building Science or Civil Engineering Technology, or a related discipline.
- Registered as a Certified Technologist by a provincial or territorial association or eligible for registration as a Certified Technologist by a provincial or territorial association.
- Effective communication and interpersonal skills.
- Working knowledge of Canadian building and safety codes.
- Strong computer skills including AutoCAD, Civil3D, MS Office and data analysis software.
- Strong technical and report-writing skills.
- Detail oriented and organized.
- Class 5 Driver's License in good standing.

*Tryon offers:*

- Health care benefits.
- Competitive compensation, including bonuses.
- Opportunity for rapid growth and exposure in a smaller-scale company.
- Offices in both Dawson Creek and Fort St. John.
- Locally owned and operated.

If this position sounds like a good fit for you, please send an email including your resume to [careers@tryongroup.ca](mailto:careers@tryongroup.ca).
